Dear Manager,

I am excited to apply for job opportunities at your prestigious company, Twilio.

I am great at communication and leadership skills. I am also a hard worker and believe in consistently achieving my end goals. I strive to achieve excellence. I have a keen eye for detail and work persistently to complete the assigned task within the time frame.

I have done my mini-project with help of Android Studio and worked in Java for the backend and XML for the front end. I also have hands-on experience in HTML, CSS, Javascript for website designing. Even knowledge on Machine Learning Algorithms for Data Science. I have intermediate knowledge in Java, C++, and basics at Python.

It would be a great opportunity to work at your company. I would put my full potential if given a chance.

Best regards.

Sunidhi.
